This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

AGAS GOOSE, PRINTER, RAMPANT HORSE STREET, NORWICH.

A

GENERAL INDEX

TO VOLS. XI.—XX.

OF

Norfolk Archæology

COMPILED UNDER THE DIRECTION OF THE COMMITTEE OF THE NORFOLK AND NORWICH ARCHÆOLOGICAL SOCIETY

BY THE LATE

JOHN OLORENSHAW,
Hon. Member,

AND

A LIST OF THE PRINCIPAL PLACES VISITED, JULY, 1890, TO DECEMBER, 1927.

NORWICH: PRINTED BY GOOSE & SON, LTD.

1928.

PREFATORY NOTE.

The Norfolk and Norwich Archæological Society has for many years projected an Index to Volumes XI. to XX. of its Publication, and through the interest and industry of the late Mr. Olorenshaw the MS. work was completed last year, but, most unfortunately, the sudden death of the compiler prevented him from seeing it through the press. As a result, the task of general arrangement and proof-correcting has been one of very great difficulty and intricacy, and has only been accomplished through the combined and invaluable efforts of Mr. F. Johnson and Mr. A. W. Goose, with some assistance from the Editorial Secretary.

It is hoped that members of the Society, and other readers, will take into consideration the above-mentioned circumstances when they judge the work as a whole, and make due allowance for any defects or errors which the Index may contain.

GENERAL INDEX.

Abbey, St. Benet's, Gateway repaired, xii. 335 (1891 Rep. vi.)
— — held land at Witchingham Parva, xiii. 202
